

Can your current door hardware survive the U.S. Marine Corps?

Ingersoll Rand products have already proven that they can.

Situation

Locksmith Jim Glendenning of Twentynine Palms Marine Corps knows something about **high-traffic, high-abuse** door applications.

Before he began installing Schlage brand locks, Glendenning was **replacing a lock nearly every day** to keep up with the base of nearly 20,000 people.

Solution

Fed up with lack of after-sale service from competing brands, Glendenning turned to Schlage and installed Schlage Campus Locks and KC2 programmable locks. He used Campus Locks on training rooms, barracks and mess halls and KC2 on Communication Room doors.

Schlage KC2

“Ingersoll Rand security products have been a great success on our base. They integrate easily with existing lock systems, the installation is straightforward and the customer service is great. I have no regrets about making the change.”¹

Success

Since 2005 we’ve installed thousands of locks in our barracks. The quality is superior to others and the support provided stands up to its claim. It’s by far the best made for our tough environment.¹

Glendenning said about Schlage locks, “These locks are much more difficult to damage. Our previous locks were not standing up to the wear and tear of young Marines.”¹

¹Source: “U.S. Marine Lockdown: Electronic locks withstand daily use by demanding Marines and work with government-issued CAC credentials”, *Government Security*, February 1, 2006

The right door hardware for every application.

Schlage Mechanical Locks

- Mortise and cylindrical commercial-grade locks

- Residential locks and deadbolts

- Primus® XP keys and key systems for areas that require high security and complete key control

Ingersoll Rand can easily accommodate your need for varying levels of security and accessibility across a campus or within a single building. Our safety and security solutions are tough, reliable, versatile and built to last.

Von Duprin Exit Devices

LCN Closers and Auto Operators

Schlage Electronic Locks and Readers

- KC2 locks and deadbolt

- CL Series locks
